COMPREHENSIVE SEO AUDIT REPORT

phwcare.com

Parish Health & Wellness

Red Bluff, California

Prepared: March 26, 2026

Prepared by Phoenix Method

hello@phoenixmethod.com | phoenixmethod.com

Executive Summary

This report provides a comprehensive SEO audit of phwcare.com, the website for Parish Health and Wellness (PHW), a mental health counseling practice based in Red Bluff, California offering both in-person and telehealth therapy services across the state.

The audit covers technical SEO health, on-page optimization, content strategy, local SEO, site architecture, and competitive positioning. Each section includes current status, identified issues, and prioritized recommendations for improvement.

PHW operates in the YMYL (Your Money or Your Life) healthcare space, which means Google applies heightened scrutiny to E-E-A-T signals (Experience, Expertise, Authoritativeness, Trustworthiness). This audit pays special attention to these factors.

Site Overview

Domain: phwcare.com (www.phwcare.com)

Platform: Squarespace

Location: 22425 Sunbright Ave, Red Bluff, CA 96080

Phone: 530-528-2342

Email: info@phwcare.com

Services: Online therapy (California-wide), in-person counseling (Red Bluff), substance abuse counseling, rehab center donations

Insurance: Medi-Cal, Medicare, Partnership, Anthem, Carelon, United Healthcare, Aetna, Optum, TriWest, BlueSheild, Cigna, GEHA, AARP, and more

Target Markets: Northern California (primary), statewide California (telehealth)

Pages Discovered

The following key pages were identified during the crawl:

- Homepage (/)
- About (/about)
- Counselors (/phw-counselors)
- Contact (/contact)
- Insurances (/insurances)
- Therapy Blog (/mental-health-blog)
- MH Resources (/mental-health-resources-california)
- Donations / Rehab Center (/rehab-center-donations)
- Careers (/counseling-jobs-red-bluff)
- Therapy Service Pages (10): Anxiety, Depression, Anger, Trauma, Family, Substance/Addiction, Life Transitions, Conflict Resolution, Faith-Based, LGBTQ+
- Online Therapy California (blog post)

- IIPP Policy Page (/injury-and-illness-prevention-program)

Technical SEO Audit

Technical SEO forms the foundation of search visibility. Issues here prevent Google from properly crawling, indexing, and ranking your content.

Item	Status	Priority	Notes & Recommendations
SSL Certificate (HTTPS)	PASS	N/A	Site loads over HTTPS. Redirect from HTTP to HTTPS confirmed.
Mobile Responsiveness	PASS	N/A	Squarespace templates are mobile-responsive by default.
Page Load Speed	WARN	High	Squarespace sites often underperform on Core Web Vitals. Large hero images need optimization. Recommend WebP format and lazy loading.
XML Sitemap	WARN	High	Squarespace auto-generates sitemap at /sitemap.xml. Verify all therapy pages are included and no orphan pages exist.
Robots.txt	PASS	N/A	Squarespace generates robots.txt automatically.
Canonical Tags	WARN	Medium	Verify canonical tags on all therapy service pages point to the correct URL. Check for duplicate www vs non-www issues.
Schema Markup	FAIL	Critical	No structured data detected. Missing LocalBusiness, MedicalBusiness, ProfessionalService, FAQPage, and BreadcrumbList schemas. This is a major missed opportunity for rich results.
Core Web Vitals	WARN	High	Squarespace limitations. LCP may be slow due to large hero images. Optimize images, minimize third-party scripts.
301 Redirects	WARN	Medium	Old URL structure detected (/linda-spyres-2/). Ensure all legacy URLs redirect properly to current pages.
404 Errors	WARN	Medium	Check Google Search Console for crawl errors. Legacy pages from site migrations may return 404s.
Image Alt Text	FAIL	High	Multiple images missing descriptive alt text. All service icons, team photos, and hero images need keyword-optimized alt attributes.
Heading Hierarchy	WARN	Medium	Homepage has multiple H1 tags. Each page should have exactly one H1 containing the primary keyword.

On-Page SEO Analysis

On-page SEO ensures each page is optimized for its target keywords and provides clear signals to Google about the page's topic and relevance.

Title Tags & Meta Descriptions

Page	Current Title	Recommended Title
Homepage	Online Therapy California Mental Health Counseling in Red Bluff	Online Therapy California Counseling Red Bluff PHW Care
Counselors	CA Online Therapists PHW	Meet Our Licensed Therapists Red Bluff & CA Online PHW Care
Contact	Book Your Appointment Now	Book a Therapy Appointment Red Bluff CA PHW Care
Anxiety	<i>(Not visible in crawl)</i>	Anxiety Therapy California Online & Red Bluff PHW Care
Trauma	<i>(Not visible in crawl)</i>	Trauma & PTSD Therapy California Evidence-Based PHW Care

E-E-A-T Assessment (Critical for YMYL)

As a healthcare provider, PHW operates in a YMYL (Your Money or Your Life) category. Google applies heightened quality standards to these sites. Strong E-E-A-T signals are essential for ranking.

E-E-A-T Signal	Status	Details & Recommendations
Experience	PASS	Medium Counselor bios demonstrate real clinical experience. Linda Spyres' 20+ year history is strong. Add more client outcome narratives (anonymized).
Expertise	PASS	Low Licensed credentials displayed (LCSW, MFT, ASW, SUD). Add license verification links and continuing education mentions.
Authoritativeness	WARN	High Limited external signals of authority. Need backlinks from healthcare directories (Psychology

			Today, GoodTherapy, SAMHSA), local news, and professional associations.
Trustworthiness	WARN	High	Privacy policy present but needs HIPAA compliance language. Add SSL trust indicators, client testimonials, and Google Reviews integration. Copyright shows 2025 - update to 2026.

Local SEO Assessment

PHW serves both local (Red Bluff) and statewide (California telehealth) markets. Local SEO domination is critical for the Red Bluff service area, while statewide content strategy captures telehealth searches.

Google Business Profile

- Verify GBP listing is claimed, complete, and optimized for 'mental health counseling Red Bluff CA'
- Add all therapy service categories to GBP
- Post weekly GBP updates (therapy tips, team highlights, service announcements)
- Implement review generation strategy - provide templates to satisfied clients
- Add photos of office, team (with consent), and branded graphics
- Ensure NAP (Name, Address, Phone) is EXACTLY consistent everywhere: 22425 Sunbright Ave, Red Bluff, CA 96080 | 530-528-2342

Local Citation Opportunities

The following directories should have consistent PHW listings:

- Psychology Today (therapist profiles for each provider)
- GoodTherapy.org
- Healthgrades
- Vitals.com
- SAMHSA Treatment Locator
- Yelp Business
- Bing Places
- Apple Maps
- Yellow Pages / Superpages
- Tehama County Chamber of Commerce

Content Strategy Assessment

Current Content Strengths

- 10 dedicated therapy service pages covering distinct treatment areas - excellent topical depth
- Each service page has substantial content (1,500+ words) with educational value
- Blog section exists (/mental-health-blog) for ongoing content publishing
- Mental health resources page adds value and topical authority
- Bilingual capability mentioned (Marilyn Paventy - Spanish) - opportunity for Spanish content

Content Gaps & Opportunities

- No FAQ sections on service pages - major missed opportunity for featured snippets and AI Overview citations
- Missing 'conditions treated' hub page linking all therapy types
- No location-specific landing pages (e.g., 'Therapy in Tehama County', 'Counseling Corning CA', 'Red Bluff Mental Health')
- Blog needs consistent publishing schedule (minimum 2x/month) targeting long-tail keywords
- No Spanish-language content despite having a bilingual therapist
- Insurance pages could be expanded - individual pages for 'Medi-Cal therapy Red Bluff', 'Medicare counseling California'
- Rehab center donations page is extensive but dilutes the therapy SEO focus - consider subdomain or separate section

Recommended Blog Topics (Priority Keywords)

- 'Signs you need therapy' / 'When to see a therapist'
- 'Online therapy vs in-person therapy California'
- 'Does Medi-Cal cover therapy in California?'
- 'Trauma therapy techniques explained'
- 'Anxiety management strategies from a licensed therapist'
- 'How to choose a therapist in Northern California'
- 'Faith-based therapy: what to expect'
- 'Family therapy: when your family needs help'
- 'Substance abuse counseling: the first step to recovery'
- 'LGBTQ+ affirming therapy in California'

Site Architecture & Internal Linking

The current site architecture is reasonably well-organized with a clear navigation hierarchy. However, there are significant opportunities to strengthen internal linking and create a more dominant topical cluster structure.

Current Structure

- Homepage acts as a hub linking to all major therapy services
- Therapy dropdown menu provides direct access to all 10 service pages
- Each service page links back to the contact page
- Footer contains comprehensive site links and service links

Recommendations

- Create a '/therapy' hub page that links to ALL service pages and acts as a topical pillar
- Cross-link between related therapy pages (e.g., Trauma links to Substance Abuse, Depression links to Anxiety)
- Add 'Related Services' sections at the bottom of each therapy page
- Blog posts should link to relevant service pages (content cluster strategy)
- Individual counselor profile pages should link to their therapy specialties
- Add breadcrumb navigation for improved crawl structure and user experience

Competitive Landscape

PHW operates in a moderately competitive local market (Red Bluff/Tehama County) but faces strong competition in the statewide California telehealth space.

Key Competitive Advantages

- Strong therapist credentials and diverse team (LCSW, MFT, ASW, SUD counselor)
- Extensive insurance acceptance including Medi-Cal and Medicare
- Both in-person and telehealth services across all of California
- 10 dedicated therapy service pages with substantial content
- Bilingual therapist capability (English/Spanish)
- Rehab center expansion shows organizational growth and commitment

Competitive Vulnerabilities

- No schema markup (competitors with schema get rich results and higher CTR)
- Limited backlink profile compared to established competitors
- No Google Reviews strategy actively implemented
- Blog content publishing is inconsistent
- No location-specific landing pages for surrounding communities
- Site footer still shows '2025' and 'Design by Waive, Angel Metrix' - update needed

Priority Action Plan

The following actions are prioritized by impact and urgency. Implementing these in order will produce the fastest ROI for PHW's search visibility.

PHASE 1: Critical Fixes (Weeks 1-2)

#	Action Item	Impact	Effort
1	Implement schema markup: LocalBusiness, MedicalBusiness, FAQPage, BreadcrumbList across all pages	Critical	4-6 hours
2	Fix image alt text on ALL images site-wide with keyword-optimized descriptions	High	2-3 hours
3	Optimize title tags and meta descriptions for all pages per recommendations above	High	2-3 hours
4	Fix heading hierarchy - ensure one H1 per page with primary keyword	High	1-2 hours
5	Update copyright to 2026, update footer credit	Low	10 min

PHASE 2: Local SEO Domination (Weeks 2-4)

#	Action Item	Impact	Effort
6	Optimize Google Business Profile: complete all fields, add services, photos, posts	Critical	3-4 hours
7	Submit to 10 priority local citations (Psychology Today, GoodTherapy, Healthgrades, etc.)	High	4-6 hours
8	Implement review generation templates for satisfied clients	High	1-2 hours
9	Create NAP consistency audit and fix any inconsistencies across all listings	Medium	2-3 hours

PHASE 3: Content Expansion (Weeks 4-8)

#	Action Item	Impact	Effort
10	Add FAQ sections to each therapy service page (5-8 questions each)	High	6-8 hours
11	Create location-specific landing pages for surrounding cities	High	4-6 hours
12	Publish 2 blog posts per month targeting long-tail therapy keywords	Medium	Ongoing
13	Create a /therapy hub page linking all service pages	Medium	2-3 hours
14	Implement cross-linking strategy between related therapy pages	Medium	2-3 hours

PHASE 4: Authority Building (Ongoing)

#	Action Item	Impact	Effort
15	Build backlinks from healthcare directories, local organizations, professional associations	High	Ongoing
16	Secure local press mentions (Tehama County news, community events)	Medium	Ongoing
17	Register therapist profiles on all major directories with consistent NAP	Medium	4-6 hours
18	Monthly performance reporting and strategy refinement	High	Ongoing

Summary & Next Steps

phwcare.com has a strong foundation: excellent therapy service pages with substantial content, a diverse and credentialed team, broad insurance acceptance, and both local and statewide reach. The site is well-positioned for significant ranking improvements with targeted technical and strategic SEO work.

The most impactful immediate action is implementing structured data (schema markup) across the site. This alone can unlock rich results, FAQ snippets, and AI Overview citations that dramatically increase visibility and click-through rates.

Combined with local SEO optimization, consistent content publishing, and authority building, PHW can dominate search visibility for mental health counseling in Northern California and capture statewide telehealth traffic.
